Kansas City, Aug. 29 .- C. W. New York, Aug. 29.-Bradstreet's TODAY'S MARKET REPORTS

Buyers are more in evidence this week and as a result business has expanded at leading western and Pacific coast points and at a few southern centers. Some western cities note evidence of new life in buying by southern and southwestern merchants of fall and winter goods. Incidentally some new stocks are reported being bought at Chicago which is rather in contrast with a year ago, when coming depression had already begun to make for precaution in embarking in new enterprise. Despite the improvement, however, the volume of business doing does not equal that of last season and conservatism and caution are still visible.

Retail trade is dull the country over Industry tends to increase in activity though slowly, but current production event will be the biggest thing of its panded at leading western and Pacific last night, indicating that all of them of new life in buying by southern and have filled and that they will be larger, faster and better than ever before. Under the rules of the Western Trotting stocks are reported being bought at

Industry tends to increase in activity though slowly, but current production is still below anticipation in many in-stances. Lumber production has, how-ever, shown expansion at the south and on the Pacific coast. Money has begun to flow to the country to move the crops, but otherwise demand is light and rates are very easy. High grade commercial paper is in notably light supply, an evidence that new mercansupply, an evidence that new mercan-tile operations are being governed by conservatism. Crops generally have made fair progress toward maturity. Business fallures for the week ending August 27 number 232 against 236 last week, 167 in the like week of 1907, 138 in 1906 and 161 in 1905 and 189 in 1904.

Canadian failures for the same period number 27 as against 39 last week and 29 last year.
Wheat including flour exports from the United States and Canada for the week ending August 27 are the larges

Corn exports for the week are 39,10 bushels against 34,276 last week and 798,071 in 1907. For the nine weeks ending August 27 the corn exports are 453,191 bushels against 12,630,576 in the same period last year.

Bank Clearings. Bradstreet's bank clearing report for the week ending August 27 shows an aggre-sate of \$2,185,542,000 as against \$2,349,296,000 last week and \$2,217,005,000 in the corresponding week last year.

New York Stock Market. New York Stock Market.
Wall St., New York, Aug. 29.—STOCKS—Business was comparatively small in the opening dealings in the rock market, but there was a decided under current of firmness. St. Paul. Southern Pacaffe, Américan Smelting and Consolidated Gas rained large fractions. Fluctuations generally were periower than for some time

Beautising sales and the paucity of the demand caused a greenral decline in which many stocks sold below their final prices of yesterday. The low level induced buying and the market railied sharply, with some stocks selling higher than at the beginning.

The market closed active and strong. Bull operators had the market well in hand and advanced selected stocks at will. Southern Pacific and United States Steel preferred were the principal features and the buoyancy induced extensive buying of other stocks. Gains of 1 to 1½ wert made by most active railroads and specialities. Southern Pacific get up to 2%, touching 160. United States Steel preferred 1½. Northwestern preferred 4 and Southern Railway preferred 2.
